Full-Stack Software Engineer with over 9 years of experience, specializing in scalable web application development using **Node.js, React, Next.js, PHP, Vue.js and Drupal**. Expert in front-end (HTML5, CSS/SASS, responsive UI) and back-end technologies, with a strong focus on UX/UI design and creating end-to-end digital solutions. Proven track record in leading cross-functional teams and projects from conception to delivery, emphasizing **RESTful API integration**, **Docker**, **Git**, **GraphQL integration** and delivering cohesive, customer-centric experiences.

Experience

Flexio | Puerto Rico - Remote
Fullstack Developer | 01/2023 - 10/2025

- Led full-stack application development, overseeing the integration of diverse components and **RESTful APIs** to deliver cohesive, end-to-end solutions.
- Developed and maintained scalable applications using **Node.js** and **React/Next.js (Typescript)** (or emphasize the full-stack nature), taking full ownership from concept to deployment.
- Implemented **Scrum methodology** to streamline development workflows, conduct sprint planning, and facilitate continuous delivery of valuable solutions.
- Utilized **Git** for source control and collaborated with cross-functional teams to ensure seamless integration and deployment processes.
- Provided **AMS support**, including troubleshooting, debugging, and performance optimization across the full stack to ensure application stability and efficiency.
- Designed and implemented responsive UI using **HTML5** and **CSS** (or SASS), focusing on user interaction improvements and customer-centric design principles.
- Worked closely with users and stakeholders to gather requirements, translating business objectives into technical solutions and delivering high-quality, **customer-facing applications**.
- Built and consumed RESTful APIs and **integrated GraphQL APIs** to facilitate dynamic content and complex user interactions, ensuring seamless data flow and integration.

ARQUIMED | Santiago de Chile, RM
UX/UI Front-end Developer | 11/2017 - 11/2022

- Developed websites and landing pages with a strong emphasis on **user experience** and **clean, accessible design** using **Wordpress** and **Drupal (PHP).**
- Conducted **user research** to create personas and **customer journey maps**, optimizing user interactions and design flows for improved usability.
- Worked on establishing consistent **design guidelines** and collaborated across teams to ensure a cohesive **user interface** across platforms.

AVR Media Group | Miami, FL
Fullstack Developer (Remote Contractor) | 01/2015 - 11/2017

- Designed, developed, and maintained numerous **customer-facing websites** and landing pages from concept to deployment using **PHP**, **Angular**, **Drupal**, **ReactJS**, **Node.js, Vue.js**.
- Built and consumed **RESTful APIs** to facilitate dynamic content and complex user interactions, ensuring seamless data flow and integration.
- Implemented responsive UI with **HTML5** and **CSS/SASS**, ensuring optimal user experience across various devices.
- Managed source control using **Git** and participated in code reviews to maintain code quality and ensure adherence to best practices.
